SIE 430/530 ENGINEERING STATISTICS - Fall 2018
(Tuesday and Thursday 8:00 – 9:15am, AME S212)

Instructor: Jian Liu
Office: ENGR 221
Hours: Tue 9:30 – 10:30am
       Or by appointment

TA:      Bijoy Chowdhury
Office:  ENGR 258
Hours:   Mon 3:00 – 4:00 pm
         Wed 11:00 am – 12:00 pm
         Or by appointment

Online Office Hours:
    Tue 8:00-9:00 pm
    Email: jianliu@email.arizona.edu

Skype account for online office hours: 530siesie@gmail.com

Prerequisites: Calculus + SIE 305: Introduction to Engineering Probability and Statistics

Course Website: We will be using the D2L system. (http://d2l.arizona.edu/). All class materials, including HW, handouts, etc. will be distributed from D2L. I will also be sending emails to the whole class throughout the semester using the class list on D2L. Please make sure you forward your D2L email to an email account that you frequently use.

Lecture videos will be available after each lecture on D2L –> UA Tools –> Panopto.

References:

Homework: The homework will be assigned on Thursdays and due on the following Thursday, before the end of the class. NO late submission is allowed unless it is requested and approved by the instructor in advance (e-mail or phone-call received before the day the assignment is due). Distance-learning students may submit pdf copies of their homeworks to a dropbox on D2L.

Examinations:
    Exam I: October 11, Thursday, 8:00-9:15AM,
    Exam II: December 13, Thursday, 8:00-9:30AM
Online students will take the exams on the same days via examity (detailed arrangement will be announced in September, 2018.)
Makeup examinations MUST be requested at least one week prior to the date the exam is held. In case of medical or other personal/family emergencies, a formal excuse (doctor’s note, etc.) is required.

**Grading:**

- Homework: 20%
- Exam I: 35%
- Exam II: 45%

**Academic Integrity Policy:** Students are encouraged to share intellectual views and discuss freely the principles and applications of course materials. However, homework, and exams must be the product of independent effort unless otherwise instructed. Students are expected to adhere to the UA Code of Academic Integrity: [http://dos.web.arizona.edu/uapolicies](http://dos.web.arizona.edu/uapolicies/). Any violation of the academic integrity code will be dealt with using the procedures detailed in the code.

**Course Outline:**

- Review of Probability Theory
  - Probability Set Function
  - Conditional Probability and Independence
  - Random variables, common distributions
  - Expectation (including Moment Generating Functions)
- Properties of a Random Sample
  - Order Statistics
  - Asymptotic Properties of the Sample Mean
  - Sampling from a Normal Distribution
- Point Estimation
  - Method of Moments
  - Maximum Likelihood Estimation
  - Bias, Efficiency and Consistency of Point Estimators
  - Best Minimum Variance Unbiased Estimator
- Hypothesis Testing I
  - Elements of a Statistical Test
  - Some Common Tests (concerning means, variances, etc.)
  - Goodness-of-Fit
- Hypothesis Testing II
  - Likelihood Ratio Tests
  - Optimal Tests and the Neyman-Pearson Lemma
- Confidence Interval Estimation
  - Inverting a Test Statistic
  - Asymptotic Confidence Intervals
  - Size and Coverage Probability

**Inclusive Excellence Statements**

This course supports elective gender pronoun use and self-identification; rosters indicating such choices will be updated throughout the semester, upon student request. As the course includes group work and in-class discussion, it is vitally important for us
to create an educational environment of inclusion and mutual respect. (NOTE: You can download your class roster from UAccess)

Inclusive Excellence is a fundamental part of the University of Arizona’s strategic plan and culture. As part of this initiative, the institution embraces and practices diversity and inclusiveness. These values are expected, respected and welcomed in this course.
