Supply Chain Management

Catalog Description: SIE 565 -- Fundamentals of Supply Chain Management including inventory/logistics planning and management, warehouse operations, procurement, sourcing, contracts and collaboration. Graduate-level requirements include an additional semester research paper. May be convened with SIE 465

Prerequisite(s): SIE 305, SIE 340

Instructor: Dan Klingberg, dtkling@email.arizona.edu
ENGR 153, +1 520 612-4996
Office Hours: W/F 10:00 – 11:30 AM, or by appointment (email an appointment request)

TA: Jaymin Patel, jaymin@email.arizona.edu
ENGR 259, +1 520 358-5786
Office Hours: Tuesday 2:30 - 4:00 PM & Thursday 12:30 - 2:00 PM

Website: Desire2Learn (D2L) will be used for the class website (http://d2l.arizona.edu)

Class: MWF 9:00 AM – 9:50 AM

Required Course Materials:
Course materials are being delivered digitally via D2L through the Inclusive Access program. Please access the material through D2L the first day of classes to make sure there are no issues in the delivery, and if you are having a problem or question, it can be addressed quickly. You automatically have access to the course materials FREE through January 22, 2019. You must take action (even if you have not accessed the materials) to opt-out if you do not wish to pay for the materials, and choose to source the content independently. The deadline to opt-out for the 15-week course beginning January 9th is 9:00pm MST, January 22, 2019.
If you do not opt-out, the cost of the digital course materials will appear on your September Bursars account. Please refer to the Inclusive Access FAQs at https://shop.arizona.edu/textbooks/Inclusive.asp for additional information. If you opt-out will need to purchase the Textbook: Supply Chain Management – A Logistics Perspective 10th edition by Coyle, Langley, Novak and Gibson. (Cengage Learning)

Software: Students will use University licensed software for a variety of in and out of class projects.

Grading: Regular grades are awarded for this course: A B C D E.

- 30% Two (2) Exams
- 20% Final Exam
- 30% Homework/Class Participation
- 20% 3 Case Studies/Papers

Course Objectives and Learning Outcomes: This course is intended to give students background and a foundation in the design and operation of supply chain systems. We will give an overview of supply-demand planning and operations and a detailed investigation into Supply Chain Distribution and Supply Chain Integration. At the end of this course, students should:

- Understand the approaches and systems used for purchasing management, managing supplier relationships and resource management and planning.
- Understand and be able to use the tools and approaches to make transportation decisions location decisions, manage customer and supplier relationships, and measure supply chains
- Be familiar with supply chain professional organizations the various supply chain certification options available.
- Be able to comprehend supply chain problems in a variety of industries, design and propose integrated solutions leveraging engineering skills that improve the supply chain performance across key supply chain metrics.
Absence Policy:
On campus students are expected to attend the on-campus classes. Online students are expected to watch the Panopto lectures. Attendance will be included as part of the Participation Credit score. All holidays of special events observed by organized religions will be honored for those students who have affiliation with that particular religion. Absences pre-approved by the UA Dean of Students (or Dean’s designee) will be honored.

Expected Classroom Behavior:
Students are expected to maintain a professional business-like conduct during class and during all class activities.

Policy against plagiarism:
Students are allowed to work and submit group work on group assignments. Students must submit their own individual work on individual assignments, but may consult with peers unless prohibited by the instructor. Turnitin® will be used to assess similarity and factored in scoring. Evidence of plagiarism will be handled according to the procedures outlined in the Student Code of Academic Integrity.

Threatening behavior by students:
Threatening and disruptive behavior is prohibited and will be handled as outlined in Threatening Behavior by Students and Disruptive Behavior in an Instructional Setting.

Required extracurricular activities:
There are no required extracurricular activities anticipated for this course.

Special materials required for the class:
There are no special materials anticipated for this course

Notification of offensive material policy:
If offensive materials will be presented in class, the instructor will notify students via their university email account prior to class and allow students to opt-out of that class session.

Accessibility and Accommodations:
It is the University’s goal that learning experiences be as accessible as possible. If you anticipate or experience physical or academic barriers based on disability or pregnancy, please let me know immediately so that we can discuss options. You are also welcome to contact Disability Resources (520-621-3268) to establish reasonable accommodations.

Please be aware that the accessible table and chairs in this room should remain available for students who find that standard classroom seating is not usable.

Changes to this Syllabus:
The information contained in the course syllabus, other than the grade and absence policies, may be subject to change with reasonable advance notice, as deemed appropriate by the instructor.

Course Outline:
1. Supply Chain Foundations
2. Supply Chain Fundamentals
3. Cross-Chain Logistics Processes
4. Supply Chain Challenges and Future Directions
5. Supplier Engineering
