Class hours: MWF 10:00 – 10:50 a.m.
Instructor: Prof. Wei Lin
Email: whlin@email.arizona.edu
Office hour: by appointment.

Teaching Assistants:
Liang Zhang
Email: liangzhang@email.arizona.edu
Meeting ID: 856 3537 9968
Passcode: 431531
Office hour:
  Tuesday: 4:00 – 5:30 PM
  Thursday: 8:00 – 9:30 PM

Purpose: This course is designed to develop student's ability to model and analyze real systems using discrete event simulation. Through this course, the student will understand the power and characteristics of discrete event simulation modeling. During the course, the student will get experience in: (1) formulating an appropriate simulation model for a system, (2) implementing the model as a computer program, and (3) evaluating the output of the model.

Book Examples:

Topics to be covered:
1. Basic concepts of simulation (definitions and types of simulations)
2. Mechanism of discrete event simulation
3. Steady state analysis: rate diagram and non-terminating simulation system
4. Random number generation
5. Input data analysis (input distribution modeling)
6. Simulation modeling using Arena package
7. Review of probability and statistics
8. Simulation output analysis
9. Monte Carlo simulation
10. Verification and validation of simulation models
11. Other simulation approaches (Time driven simulations).

Grading Scheme

Grading (SIE 431 on campus: Section: 001):
1. Homework: 10% (homework policy will be announced on D2L)
2. Midterm Exam 1: 25%
3. Midterm Exam 2: 30%
4. Term project: 25%
5. Quiz: 10% (three quizzes with the lowest scores will be dropped)

**Grading (SIE 531 on campus: Section: 001):**
1. Homework: 10% (homework policy will be announced on D2L)
2. Midterm Exam 1: 20%
3. Midterm Exam 2: 30%
4. Term project: 30%
5. Quiz: 10% (three quizzes with the lowest scores will be dropped)

**Grading (SIE 431/531 online: Sections: 010, 025, 110, 210, 410):**
1. Homework: 15% (homework policy will be announced on D2L)
2. Midterm Exam 1: 25%
3. Midterm Exam 2: 25%
4. Term project: 35%
